Subject: RE: Unvalidated (draft) TO-15 Air data for CT8312 DAS R35254 AMES WAREHOUSE FIRE WO# 1710022

Good morning Christine,

The report is still a draft. The report you received last week was for the first five samples collected and this report contains all ten samples. The DRAFT ink mark will appear on any unvalidated report.

Thank you,

Hoang Nguyen

Hoang

Thank you for this report. However, your message indicates this is draft, but the report says "FINAL". We received this as a draft earlier, so can you clarify if this the draft or final report? And can you also mark the report accordingly (either remove FINAL or DRAFT)?

Thank you

Chris Wagner

Subject: Unvalidated (draft) TO-15 Air data for CT8312 DAS R35254 AMES WAREHOUSE FIRE WO# 1710022

This email transmits the unvalidated (draft) TO-15 Air data for CT8312 DAS R35254 AMES WAREHOUSE FIRE WO# 1710022. These data are attached as a pdf file. While we expect the final data to be the same as the unvalidated data, some minor editing may take place. Please let me know if you have any questions.

Thank you,
